Dear Zoe:

Congratulations on being named one of Houston's top lawyers in the May edition of *Inside Houston!* This is a well-deserved honor, and yet another achievement in your already distinguished career.

I wish you many more moments of recognition and success.

Power of Attorney

In Houston, lawyers are as ubiquitous as stop signs. From Andrea Yates to Enron, the demand for attorneys in the Bayou City is surpassed only, perhaps, by an unyielding supply. And like its medical counterpart, the Texas Medical Center, Houston law firms offer those in need some of the top legal minds in the country. From criminal to civil to corporate law, Houston is fully stocked with these legal eagles. So who among this wealth of talent is considered the best of the best? *Inside Houston* magazine put it to a vote. The following are the results of the poll conducted earlier this year:
